

REMARKS

Amendment "E" was filed with an RCE on May 16, 2007. In this "Supplemental Amendment F," Applicant has further amended claim 1 as he would like the claims to be considered.

The Applicant notes that the prior art cited in the most recent office communication¹ does not have an application and interface in a runtime environment (such as .NET or Java), nor does the prior art communicate and translate between a web service. Furthermore, in the present invention as presented in the claims, a result is received at the interface and the interface performs the necessary translation on the schema class to populate the corresponding object in the application.² The Applicant submits that the claims as now presented are in condition for allowance and respectfully request favorable reconsideration.

In the event that the Examiner finds remaining impediment to a prompt allowance of this application that may be clarified through a telephone interview, the Examiner is requested to contact the undersigned attorney at 801-533-9800.

Dated this 29th day of May, 2007.

Respectfully submitted,
